

Jeremy C Weiss

jcweiss2@wisc.edu

<http://cs.wisc.edu/~jcweiss>

1300 University Avenue, room 6770

Madison, Wisconsin 53706

Telephone: (206)-679-5990

Education:

University of Wisconsin, MD-PhD candidate, Madison WI (2007-Present)

Department: Medicine, Computer Science

Thesis title: Statistical Timeline Analysis for Electronic Health Records, defense April 2014

Primary advisor: C. David Page

Mentors/Committee: Sriraam Natarajan, Mark Craven, Xiaojin Zhu, Deane Mosher

Support: Computation and Informatics in Biology and Medicine T32, Institute for Clinical and Translation Research T32, Medical Scientist Training Program

University of Pennsylvania, College of Arts and Sciences, Philadelphia PA (2003-2007)

Major: BA Mathematics, BS Biochemistry, summa cum-laude

Honors: College of Arts and Sciences Dean's List for Academic Excellence (2003-2004, 2005-2006)

The Lakeside School, High School, Seattle WA (1999-2003)

Publications:

Program Committee/Reviewer for International Joint Conference on Artificial Intelligence (2013, 2016), Association for the Advancement of Artificial Intelligence (2015, 2016), American Medical Informatics Association Annual Symposium (2016), American Medical Informatics Association Joint Summit (2015), Journal of Machine Learning Research (2015), International Journal of Epidemiology (2014), Journal of Artificial Intelligence Research (2013, 2014), Inductive Logic Programming (2014), Uncertainty in Artificial Intelligence (2013).

Occupational/Research Experience:

Research elective, National Library of Medicine, Dina Demner-Fushman and Vojtech Huser (2016), ICU timelines
Research assistant, University of Wisconsin, David Page (Summer 2007), warfarin dosage prediction meta-analysis
Independent study, University of Pennsylvania, Junhyong Kim (2006-2007), yeast genomic time-series expression
Research assistant, University of Washington, Bruce Psaty and Thomas Lumley (Summer 2006), GWAS design
Independent Study, University of Pennsylvania, Ravi Radhakrishnan (2005), IP3R activation/calcium flux models
Research assistant, University of Washington, Bruce Psaty (Summer 2005), geocoding of cardiovascular risk
Research assistant, University of Pennsylvania, Rachel Croson (Summer 2004), marketing psychology
Research assistant, FHCRC, Linda Voigt (Summer 2002), error correction for smoking-induced cancers

Activities:

American Ultimate Disc League, Madison Radicals (2013-present), broadcast announcer
Ultiworld.com online magazine (2012-present), statistics writer and editor
Ultimate Frisbee Club (2012-2014), Mad Men, captain; (2005-2007) University of Pennsylvania Void
Greater University Tutoring Service (2012-2013), {biochemistry, chemistry, math, physics, game theory} tutor
Artificial Intelligence Reading Group (2009-2013), head coordinator, webmaster
3-Day Startup (2012, 2014), participant, online ride-sharing
Neuroscience Interest Group (2007-2009)
Public Health Interest Group (2007-2009)
Robotics Club (2007-2009), stereo vision programmer
Penn Chess Club (2004-2007), president, webmaster
Penn Poker Project (2003-2007), programmer/developer
Evolutionary Programming Project (2005-2007), programmer/developer

Other Interests:

Molecular diagnostics, ultimate strategy, music composition, video production, contemporary art, chess
