

41. The large sample behavior of posterior distributions when sampling from multiparameter exponential family models, and allied results. *Sankhyā*, (1979), 41B, 196-215, with J. Ladalla.

64. Experimental designs for estimating the correlation between two destructively tested variables. *J. Amer. Statist. Assoc.*, (1986), 81, 807-812, with S. Amorim.

72. Two sample rank tests under a random truncation model. *Statistics Probability Letters*, (1990), 9, 409-422, with C. Morrell.

115. A Linear Combination CUSUM Statistic for Controlling a Multivariate Mean, special issue of *Statistical Planning and Inference* (2006) in honor of S. N. Roy, with Roujia Li.
