

WACM Explains...

Introduction to Linux and the CSL Labs

<http://xkcd.com/1168/>

Wednesday, September 11th, 5:30 PM

OR

Thursday, September 19th, 5:30 PM

(both sessions are identical)

1221 CS

Is it your first time taking a class using Linux? Need a quick refresher? Worried about disarming tar-based nuclear missiles? We'll go over some of the basics to get you up to speed!

Some of the things we'll cover:

- Command line basics: ls, cd, mv, cp, rm, tab completion, etc...
- Man pages
- CSL-specific features:
 - Backups (and recovering lost files)
 - Printing
 - Directory structure and quotas
 - Your personal web page
- Profile (setting environmental variables)
- Text editors: vi and emacs
- Compilation: javac, gcc, g++
- ssh (or: how to work from home)

WACM Explains... is a series of events hosted by WACM, the Women in CS. *WACM Explains...* is open to everyone, and the goal is to be of interest to all students.

Also, we will have Oreos. =)
