Alaa R. Alameldeen

Senior Staff Research Scientist
Intel Labs
Hillsboro, Oregon, USA

CONTACT INFORMATION

Address: 2111 NE 25th Ave.
Mailstop JF2-55
Hillsboro, OR 97124
USA
Email: alaa.r.alameldeen@intel.com, alaa@cs.wisc.edu, alaa@ece.pdx.edu
Home Page: *http://www.cs.wisc.edu/~alaa/*, *http://www.cecs.pdx.edu/~alaa/*

RESEARCH INTERESTS

Computer architecture and systems, including (but not limited to):

- Processor microarchitecture, multiprocessor architecture, energy-efficient architectures, and high-performance computing.
- Memory architecture, processing in/near memory, secure cache and memory systems, memory reliability, and cache/memory compression.
- Hardware/software co-design, accelerators for machine learning workloads, performance evaluation of commercial workloads, and architectural support for operating systems and application software.

EDUCATION

Ph.D. in Computer Sciences, March 2006
Department of Computer Sciences, University of Wisconsin-Madison, Madison, WI, USA.
Advisor: Prof. David A. Wood.

M.Sc. in Computer Sciences, December 2000
Department of Computer Sciences, University of Wisconsin-Madison, Madison, WI, USA.
Ph.D. Minor in Business, May 2002.

M.Sc. in Computer Science, July 1999
Faculty of Engineering, Alexandria University, Alexandria, Egypt.

B.Sc. in Computer Science and Automatic Control, June 1996
Faculty of Engineering, Alexandria University, Alexandria, Egypt.

RESEARCH EXPERIENCE

Research Scientist. Intel Labs, Intel Corporation, April 2006-Present
Conducting forward-looking research for future Intel products.

- Memory and Accelerator Architectures Lab, 2019-Present: Research focus on secure, high-performance memory systems, and processing in/near memory.
- Memory Architecture Lab, 2013-2019: Research focus on efficient, secure and high-performance cache and memory architectures.
- Efficient Computing Lab, 2011-2013: Research focus on energy-efficient microarchitectures, caches and memory systems.
- Ubiquitous HPC Microarchitecture Lab, 2010-2011: Research focus on low-power and high-throughput microarchitectures.
- Oregon Microarchitecture Lab, 2006-2010: Research focus on energy-efficient microarchitectures.

Graduate Research Assistant. University of Wisconsin-Madison, Department of Computer Sciences, June 2000-March 2006.

- Member of the Wisconsin Multifacet project (www.cs.wisc.edu/multifacet/) co-directed by Professors Mark D. Hill and David A. Wood.
- Participated in developing Multifacet's commercial workload simulation infrastructure.

- Studied and advocated a statistical methodology for multi-threaded workload evaluation.
- Designed and evaluated compressed cache systems for uniprocessors and chip multiprocessors for Ph.D. dissertation. Advisor: Professor David A. Wood.

Graduate Researcher. Computer Science Department, Alexandria University, Alexandria, Egypt, September 1996-July 1999

- Research Focus: Computer vision.
- Designed and compared sequential methods for recovering structure and motion of a rigid object from an image sequence for my master's dissertation. Advisor: Professor Mohamed A. Ismail.

TEACHING EXPERIENCE

Adjunct Faculty. Portland State University, Department of Electrical and Computer Engineering, September 2008-April 2018.

- Taught two graduate courses: Advanced Computer Architecture I (http://www.cecs.pdx.edu/~alaa/ece587/) and Advanced Computer Architecture II (http://www.cecs.pdx.edu/~alaa/ece588/).

Graduate Teaching Assistant. University of Wisconsin-Madison, Department of Computer Sciences, August 1999-May 2000.

- Leading discussion sections, grading and consulting for two computer science undergraduate classes.

Graduate Teaching Assistant. Alexandria University, Department of Computer Science, Alexandria, Egypt, September 1996-June 1999.

- Instructor, leading discussion sections, consulting, grading and lab supervision for many computer science undergraduate classes.

Graduate Instructor. Alexandria University, Scientific Computation Center, Alexandria, Egypt, July 1996- August 1999.

- Taught introductory computer courses (2-3 weeks per course).

OTHER WORK EXPERIENCE

System Analyst and Programmer. Alexandria University, Scientific Computation Center, Alexandria, Egypt, July 1998-March 1999.

- Designed and implemented the database system for the Spinning Testing Lab in CATGO (General Organization for Cotton Arbitration and Testing), Alexandria, Egypt using MS Access.

Undergraduate Intern. Standardata Egypt, Alexandria, Egypt, July 1995-September 1995.

- Training on Unix, C programming and screen/printer Arabic language interface programs.

Undergraduate Intern. AMAC, Alexandria, Egypt, July 1994-September 1994.

- Training on systems operation and programming in COBOL for an IBM/360-compatible system.

PATENTS

1. Zhe Wang, Zeshan A. Chishti, Muthukumar P. Swaminathan, Alaa R. Alameldeen, Kunal A. Khochare, Jason A. Gayman, "Apparatus, system, and method to determine a demarcation voltage to use to read a non-volatile memory," US Patent 10,452,312, October 22, 2019.
2. Zhe Wang, Zeshan A. Chishti, Alaa R. Alameldeen, and Rajat Agarwal, "Near memory miss prediction to reduce memory access latency," US Patent 10,417,135, September 17, 2019.
3. Zhe Wang, Chris Wilkerson, Zeshan A. Chishti, Seth H. Pugsley, Alaa R. Alameldeen, and Shih-Lien Lu, "Method and apparatus for unneeded block prediction in a computing system having a last level cache and a multi-level system memory," US Patent 10,261,901, April 16, 2019.
4. Zhe Wang, Chris Wilkerson, Zeshan A. Chishti, Seth H. Pugsley, Alaa R. Alameldeen, and Shih-Lien Lu, "Method and apparatus for pre-fetching data in a system having a multi-level system memory," US Patent 10,108,549, October 23, 2018.
5. Alaa R. Alameldeen, Glenn J. Hinton, Blaise Fanning, and James J. Greensky, "Replacement of a Block with a Compressed Block to Increase Capacity of a Memory-Side Cache," US Patent 10,048,868, August 14, 2018.
6. Chris Wilkerson, Alaa R. Alameldeen, Zeshan Chishti, and Jaewoong Sim, "Method and Apparatus for Implementing a Heterogeneous Memory Subsystem," US Patent 9,921,972, March 20, 2018.
7. Alaa R. Alameldeen, Chris Wilkerson, Eugene Gorbatov, and Zeshan Chishti, "System and Method for Thread Scheduling on Reconfigurable Processor Cores," US Patent 9,703,708, July 11, 2017.
8. Chris Wilkerson, Alaa R. Alameldeen, Zhe Wang, and Zeshan Chishti, "Multi-Level Memory Management," US Patent 9,583,182, February 28, 2017.
9. Chris Wilkerson, Alaa R. Alameldeen, Zeshan A. Chishti, and Jaewoong Sim, "Method and Apparatus for Implementing a Heterogeneous Memory Subsystem," US Patent 9,472,248, October 18, 2016.
10. Chris Wilkerson, Alaa R. Alameldeen, Eugene Gorbatov, and Zeshan A. Chishti, "Systems and Methods for Managing Reconfigurable Processor Cores," US Patent 9,417,879, August 16, 2016.
11. Tingting Sha, Chris Wilkerson, Herbert Hum, and Alaa R. Alameldeen, "Compiler Assisted Low Power and High Performance Load Handling Based on Load Types," US Patent 9,311,085, April 12, 2016.
12. Alaa R. Alameldeen, Niranjan L. Cooray, Jayesh Gaur, Steven D. Pudar, Manuel A. Aguilar Arreola, Margareth E. Marrugo, and Chinnakrishnan Ballapuram, "Cache Memory Data Compression and Decompression," US Patent 9,292,449, March 22, 2016.
13. Sreenivas Subramoney, Jayesh Gaur, and Alaa R. Alameldeen, "Data Compression in Processor Caches," US Patent 9,251,096, February 2, 2016.
14. Alaa R. Alameldeen, Chris Wilkerson, and Samira M. Khan, "Read-Write Partitioning of Cache Memory," US Patent 9,233,710, December 29, 2015.
15. Chris Wilkerson, Alaa R. Alameldeen, and Shih-Lien Lu, "Selective Error Correction in Memory to Reduce Power Consumption," US Patent 8,966,345, February 25, 2015.

16. Muhammad M. Khellah, Chris Wilkerson, Alaa R. Alameldeen, Bibiche M. Geuskens, Tanay Karnik, Vivek De, and Gunjan H. Pandya, "Reducing Minimum Operating Voltage through Hybrid Cache Design," US Patent 8,868,836, October 21, 2014.
17. Alaa R. Alameldeen, Ilya Wagner, Zeshan A. Chishti, Wei Wu, and Chris Wilkerson, "Dynamically Allocatable Memory Error Mitigation," US Patent 8,806,285, August 12, 2014.
18. Chris Wilkerson, Alaa R. Alameldeen, and Jaydeep P. Kulkarni, "Adaptive Self-Repairing Cache," US Patent 8,719,502, May 6, 2014.
19. Chris Wilkerson, Alaa R. Alameldeen, Zeshan A. Chishti, Dinesh Somasekhar, Wei Wu, and Shih-Lien Lu, "Method and Apparatus for Using Cache Memory in a System that Supports a Low Power State," US Patent 8,640,005, January 28, 2014.
20. Alaa R. Alameldeen and Zeshan A. Chishti, "Hardware Support for Thread Scheduling on Multi-Core Processors," US Patent 8.276,142, September 25, 2012.
21. Zeshan A. Chishti, Alaa R. Alameldeen, Chris Wilkerson, Wei Wu, Dinesh Somasekhar, Muhammad Khellah, and Shih-Lien Lu, "Performing Multi-Bit Error Correction on a Cache Line," US Patent 8,245,111, August 14, 2012.
22. David A. Wood and Alaa R. Alameldeen, "Adaptive Cache Compression System," US Patent 7,412,564, August 12, 2008.

INVITED AND CONFERENCE TALKS

Moderator Introduction: Is Processing In/Near Memory Worth the Effort?

- 5th Workshop on Computer Architecture Research Directions (CARD-5) with ISCA-2019, Phoenix, Arizona, June 2019.

Chameleon: A Dynamically Reconfigurable Heterogenous Memory System

- 51st International Symposium on Microarchitecture (MICRO-51), Fukuoka, Japan, October 2018.

Opportunistic Compression for Direct-Mapped DRAM Caches

- 4th International Symposium on Memory Systems, Washington, D.C., USA, October 2018.

Probabilistic Replacement Strategies for Improving the Lifetimes of NVM-Based Caches

- 3rd International Symposium on Memory Systems, Washington, D.C., USA, October 2017.

Keynote Address: Near-Threshold Computing: How Close Should We Get?

- 2nd Workshop on Near-Threshold Computing (with ISCA-41), Minneapolis, Minnesota, USA, June 2014.

Energy-Efficient Cache Design Using Variable-Strength Error-Correcting Codes

- 38th International Symposium on Computer Architecture (ISCA-38), San Jose, California, USA, June 2011.

Improving Cache Lifetime Reliability at Ultra-Low Voltages

- 42nd International Symposium on Microarchitecture (MICRO-42), New York City, New York, USA, December 2009.

Interactions between Compression and Prefetching in Chip Multiprocessors

- 13th International Symposium on High Performance Computer Architecture (HPCA-13), Phoenix, Arizona, USA, February 2007.

Cores, Caches, and Compression in Chip Multiprocessors

- Purdue University, West Lafayette, Indiana, USA, April 2005.
- Intel, Hudson, Massachusetts, USA, August 2005.
- Intel, Santa Clara, California, USA, September 2005.
- Intel, Hillsboro, Oregon, USA, September 2005.
- AMD, Sunnyvale, California, USA, September 2005.

GEMS: Multifacet's General Execution-Driven Multiprocessor Simulator

- Tutorial at the 32nd International Symposium on Computer Architecture (ISCA-32), June 2006 (with Michael R. Marty, Bradford M. Beckmann, Luke Yen, Min Xu and Kevin E. Moore).

Adaptive Cache Compression for High Performance Processors

- 31st International Symposium on Computer Architecture (ISCA-31), Munich, Germany, June 2004.
- 9th Annual Wisconsin Architecture Industrial Affiliates Meeting, Madison, Wisconsin, USA, October 2004.

Using Cache Compression to Improve CMP Performance

- 8th Annual Wisconsin Architecture Industrial Affiliates Meeting, Madison, Wisconsin, USA, October 2004.

Simulating a $2M Commercial Server on a $2K PC

- Intel Labs, Hillsboro, Oregon, USA, March 2003.

Variability in Architectural Simulations of Multi-threaded Workloads

- Intel Labs, Hillsboro, Oregon, USA, March 2003.
- 9th International Symposium on High Performance Computer Architecture (HPCA-9), Anaheim, California, USA, February 2003.
- 7th Annual Wisconsin Architecture Industrial Affiliates Meeting, Madison, Wisconsin, USA, October 2002.

Sequential Methods for Recovering Structure and Motion of a Rigid Object from an Image Sequence

- International Conference on Computer Vision, Pattern Recognition and Image Processing (CVPRIP'2000), Atlantic City, New Jersey, USA, March 2000.

HONORS AND AWARDS

- Divisional Recognition Award, Architecture and Design Research, Intel Labs, 2019.
- Divisional Recognition Award, Architecture and Design Research, Intel Labs, 2018.
- Divisional Recognition Award, Product Architecture Group, Platform Engineering Group, Intel Corporation, 2017.
- Divisional Recognition Award, Architecture and Design Research, Intel Labs, 2015.
- Ranked 1st on the Dept. of Computer Science and Automatic Control students during the academic years 1992-1993 to 1995-1996.
- Ranked 1st on the faculty of engineering students during the academic year 1991-1992 and upon graduation in the academic year 1995-1996 (B.Sc.).
- Awarded the Prof. Abdelsamie Mustafa prize for the top student of the Faculty of Engineering in 1996.
- Awarded the Prof. Naim Abou Taleb prize for the top student of the Dept. of Computer Science and Automatic Control in 1996.
- Ranked 8th on the Mathematics section high school students in Egypt upon graduation.

PROFESSIONAL ACTIVITIES AND SERVICE

- Organizing Committee Chair, JILP Workshop on Data Prefetching: Data Prefetching Championship (with HPCA-2009), February 2009.
- Program Committee Chair, Industry Track at the 26th International Symposium on High-Performance Computer Architecture (HPCA-2020), February 2020.
- Workshop Chair, 39th International Symposium on Computer Architecture (ISCA-39), Portland, OR, June 2012.
- Organizing Committee member, 1st JILP Workshop on Computer Architecture Competitions (JWAC-1): Cache Replacement Championship (with ISCA 2010), June 2010.
- Organizing Committee member, 2nd JILP Workshop on Computer Architecture Competitions (JWAC-2): Championship Branch Prediction (with ISCA 2011), June 2011.
- Organizing Committee member, 4th JILP Workshop on Computer Architecture Competitions (JWAC-4): Championship Branch Prediction (with ISCA 2014), June 2014.
- Organizing Committee member, 5th JILP Workshop on Computer Architecture Competitions (JWAC-5): Data Prefetching Championship (with ISCA 2015), June 2015.
- Organizing Committee member, 7th JILP Workshop on Computer Architecture Competitions: Second Cache Replacement Championship (with ISCA 2017), June 2017.
- Serving on the steering committee for the JILP Workshop on Architecture Competitions.
- Served on NSF review panels.
- Guest editor for the JILP Special Issue on Data Prefetching, 2011.
- Program Committee Member for the 2020 International Symposium on High-Performance Computer Architecture (HPCA-2020), 2019 International Symposium on Computer Architecture (ISCA-2019), 2019 International Symposium on High-Performance Computer Architecture (HPCA-2019), 2019 International Parallel and Distributed Processing Symposium (IPDPS-2019), 2018 International Symposium on High-Performance Computer Architecture (HPCA-2018), 2017 International Symposium on Microarchitecture (MICRO-2017), 2017 IEEE Micro Special Issue on "Micro's Top Picks from 2016 Computer Architecture Conferences," 2015 International Symposium on Microarchitecture (MICRO-2015), IEEE International

Symposium on Workload Characterization (IISWC-2015), 2015 International Symposium on Performance Analysis of Systems and Software (ISPASS-2015), Workshop on Near-Threshold Computing (with ISCA-2014), 2014 Workshop on Computer Architecture Competitions (CPB-4, with ISCA 2014), 2014 International Symposium on Performance Analysis of Systems and Software (ISPASS-2014), 26th International Parallel and Distributed Processing Symposium (IPDPS 2012), 1st JILP Workshop on Computer Architecture Competitions (JWAC-1, with ISCA 2010), 2nd JILP Workshop on Computer Architecture Competitions (JWAC-2, with ISCA 2011), 2nd International Forum on Next-generation MultiCore/ManyCore Technologies (IFMT'10, with ISCA 2010), 5th Annual Workshop on Modeling, Benchmarking and Simulation (MoBS, with ISCA 2009), JILP Workshop on Data Prefetching (DPC-1, with HPCA 2009), and 1st International Forum on Next-generation MultiCore/ManyCore Technologies (IFMT'2008).

- Reviewer for the International Symposium on Computer Architecture (ISCA), International Symposium on High-Performance Computer Architecture (HPCA), International Symposium on Microarchitecture (MICRO), ACM International Conference on Architectural Support for Programming Languages and Operating Systems (ASPLOS), International Symposium on Low Power Electronics and Design (ISLPED), International Conference on Parallel and Distributed Systems (ICPADS), VLSI Design Conference, IEEE Micro, IEEE Transactions on Computers, IEEE Transactions on CAD, IEEE Transactions on VLSI Systems, IEEE Transactions on Dependable and Secure Computing, IEEE Computer Architecture Letters (CAL), ACM Transactions on Architecture and Code Optimization, and ACM Transactions on Computer Systems.
- Member of the ACM, the IEEE and the IEEE Computer Society since 2006 (Student Member 2000-2006).
- Member of ACM Special Interest Group on Computer Architecture (SIGARCH), ACM Special Interest Group on Microarchitecture (SIGMICRO), IEEE Technical Committee on Computer Architecture (TCCA), Technical Committee on Microprocessors and Microcomputers (TCMCOMP), Technical Committee on Microprogramming and Microarchitecture (TCUARCH), Technical Committee on Simulation (TCSIM), Technical Committee on Pattern Analysis and Machine Intelligence (TCPAMI).
- Organizer of the Computer Architecture Seminar at the University of Wisconsin-Madison, Spring 2003.
