

CS 809
Fall 2018
Homework 0

Please fill in the questionnaire below and bring it back to class on Friday, September 7.

1) Write your name and e-mail address somewhere on this page. If I don't already know you, please attach a picture of yourself.

2) What is your primary area of interest?

3) Why are you taking this course? (E.g. "minor area requirement," "desperately need thesis topic," etc.)

4) I would like to get some idea of what you already know. Please indicate courses you have taken (if any) in the following areas.

1. Combinatorics and discrete mathematics.

2. Analysis (real or complex).

3. Probability and/or statistics.

4. Computer algorithms.

5. System modeling: queues, stochastic optimization, computer performance analysis, etc.

5) Is there anything else I should know about you?
