

Class Project Info

- Class projects are to be done in groups of 2-3 students.
- Each group should pick a topic related to class and study material related to the topic. Each group is required to give a 30 minute presentation in class on their topic, and also distribute notes (4-8 pages) related to their presentation.
- The final scores for the project will have two components: one part will be assigned by Shuchi, the other depends on peer evaluation. Every presentation and lecture notes will be rated by your peers. These ratings will be normalized and translated into a score which will be added to the score that Shuchi gives.

Tasks

1. Form a group of 2-3 people.
2. Find a project topic and related material to read. See the class webpage for suggestions (the reading list will be populated by Wednesday, October 7), or pick a topic of your choice.
3. Make an appointment with Shuchi during the weeks of October 12 or October 19th. Shortlist some potential topics before the meeting, and based on your discussion with Shuchi finalize one topic.
4. By October 23 (Friday), email Shuchi the topic of your choice, and a list of the material you will be reading.
5. During the week of November 2, pick a date for your presentation. Potential dates will be announced in class and on the webpage. Your lecture notes should be distributed the day of your presentation. Dates will be assigned on a first come first served basis.
6. Attend the presentations, rate your peers, and enjoy!
