

messages::DynamicTerrainInfo::isvisible\_size

```
graph LR; A[messages::DynamicTerrainInfo::isvisible_size] --> B[google::protobuf::RepeatedField::size]
```

A diagram illustrating a mapping between a specific field and a base type. On the left, a gray rectangular box contains the text 'messages::DynamicTerrainInfo::isvisible\_size'. A dark blue arrow points from the right side of this box to the right side of another rectangular box on the right. This second box is white with a black border and contains the text 'google::protobuf::RepeatedField::size'.

google::protobuf::RepeatedField::size
