

Undermind/proxy/cpp/include/google/protobuf/stubs/common.h

```
graph TD; A[Undermind/proxy/cpp/include/google/protobuf/stubs/common.h] --> B[assert.h]; A --> C[stdlib.h]; A --> D[cstdint]; A --> E[string]; A --> F[string.h]; A --> G[stdint.h];
```

A diagram illustrating the include relationships of the file `Undermind/proxy/cpp/include/google/protobuf/stubs/common.h`. The main header file is shown in a grey box at the top. Six blue arrows point from this box to six separate white boxes below, each representing a header file that is included by the main file. The included headers are `assert.h`, `stdlib.h`, `cstdint`, `string`, `string.h`, and `stdint.h`.

`assert.h`

`stdlib.h`

`cstdint`

`string`

`string.h`

`stdint.h`
