The diagram illustrates a header file dependency. At the top is a gray box containing the header file path: `quorum/ExampleAIModule/ExecutionCommanderAgent.h`. Below it are two white boxes. The left box contains `quorum/ExampleAIModule/AgentPool.cpp` and the right box contains `quorum/ExampleAIModule/ExecutionCommanderAgent.cpp`. Blue arrows point from each of these two boxes up to the header file box, indicating that both source files include the header.
