

trunk/bwapi/TestAIModule/Source/CloakTest.h

```
graph BT; C1[trunk/bwapi/TestAIModule/Source/CloakTest.cpp] --> H[trunk/bwapi/TestAIModule/Source/CloakTest.h]; C2[trunk/bwapi/TestAIModule/Source/TerranTest.cpp] --> H;
```

The diagram illustrates a header file inclusion relationship. At the top, a gray rectangular box contains the header file path: `trunk/bwapi/TestAIModule/Source/CloakTest.h`. Below this box, there are two white rectangular boxes. The left box contains the source file path: `trunk/bwapi/TestAIModule/Source/CloakTest.cpp`. The right box contains the source file path: `trunk/bwapi/TestAIModule/Source/TerranTest.cpp`. Two blue arrows point from the top-right corner of the left box and the top-left corner of the right box towards the bottom edge of the top gray box, indicating that both source files include the header file.
