

trunk/bwapi/ExampleAIModule/Source/ExampleAIModule.h

```
graph BT; DllCpp[trunk/bwapi/ExampleAIModule/Source/Dll.cpp] --> Header[trunk/bwapi/ExampleAIModule/Source/ExampleAIModule.h]; ExampleCpp[trunk/bwapi/ExampleAIModule/Source/ExampleAIModule.cpp] --> Header;
```

The diagram illustrates a file dependency structure. At the top is a gray rectangular box containing the header file path: `trunk/bwapi/ExampleAIModule/Source/ExampleAIModule.h`. Below this box are two white rectangular boxes. The left box contains the path `trunk/bwapi/ExampleAIModule/Source/Dll.cpp`, and the right box contains the path `trunk/bwapi/ExampleAIModule/Source/ExampleAIModule.cpp`. Two blue arrows originate from the top-right corner of the left box and the top-left corner of the right box, both pointing towards the bottom edge of the top gray box, indicating that both source files include or depend on the header file.
